REPORT OF LIQUOR OFFICER.

To the Selectmen of Franklin:

I received my appointment as a special officer for the suppression of the illegal sale and traffic in intoxicating liquors in Franklin last April. Since then I have prosecuted twenty-seven persons in all—three for illegal keeping, eleven for drunkenness, four for larceny, four for keeping unlicensed dogs, two for illegal driving of horses and three for assault. The case against Edwin P. Blackmar for illegal keeping, which was pending in the Superior Court at the time of making my report, was duly tried and he was convicted and

fined $75. The case against James McParland, which was pending at the time of making my last report, was tried, and he was fined $150. Peter Parriseau, who was hiding from justice, was found in Whitinsville, was tried, found guilty and fined $100. John Fitzgerald, Central street, was found guilty of illegal keeping and paid $50 fine. I have one case against Patrick A. Hobin for illegal keeping. He is fleeing from justice at this time.

The town of Franklin has received more in fines the past year than any year before. The fines in the above cases amount to $545.

All of which is respectfully submitted.

Police Officer.

Report of School Committee.

To the Citizens of Franklin:

The work of your School Committee for the fiscal year of 1896 and 1897 has been very harmonious. This is due to several reasons:

1st. That the Committee has come to understand that their meetings together on the first Thursday evenings of each month were not to while away the hours on some trifling topic, but to begin at once at the hour appointed to transact the business to which the town elected them in a manner courteous to each other.

2d. That by-laws recently adopted by the Committee and carefully revised during the present year have come to have their full weight with the Committee.

3d. That a carefully prepared plan of the necessary items of business on the part of the Superintendent has greatly facilitated the business of the hour.

The first work of your Committee was to organize itself for work, as may be noted on a previous page.

The business of the Committee has been made harmonious, too, by the adopting as its action, in nearly every instance, the report and recommendation of its sub-committees. It should be said in this connection that these committees, in their report to the general Committee, have shown a careful consideration of the topics assigned them, and an earnest desire to reduce to their lowest figure the matters under their care.

COMMITTEE ON REPAIRS.

The work of this Committee is worthy of special mention. It has seemed advisable during the year to do a large amount of painting. Great care has been taken that the strictest economy should be practiced in the purchase of materials and in the use of time necessary to apply the same.

COMMITTEE ON FUEL.

This Committee has followed the same general plan in procuring its fuel as in the years just passed. Through the efforts of this Committee a slight reduction in the price of the cleft oak wood has been secured.

COMMITTEE ON BOOKS AND SUPPLIES.

This is the most important of the Board's sub-committees, as upon its recommendation the Board purchases its books and supplies to a very large degree; and in case of any difference of opinion between the Board and its Superintendent as to the advisability of any purchase the Board has adopted its report in preference. This Committee is to be commended for its conscientious and faithful service in the matters assigned to it.

SPECIAL COMMITTEE.

Through the efforts of the Board's Special Committee, Mr. Chapman, it has accomplished some of the much-needed work on the grounds around the Horace Mann building. The approaches to this building have been a constant source of annoyance to teachers and pupils ever since the building has been in use. It was, therefore, thought best that the money asked for by the Committee of last year should be expended in improving the walks around this building, and this has been done to the satisfaction of the Committee.

But a great deal more should be done. The grounds around the building should be graded to a stone curbing around the entire property; and at an appropriate point in front of the building a statue to America's greatest educator, the man for whom the building is named, Franklin's most illustrious son—Horace Mann—should be erected by the

children of the Public Schools, together with the citizens of the town; and as the town has chosen to erect a building that should be an ornament to the community, instead of for the purpose of the greatest utility as a means of education, it should see to it that its work of ornamentation should be made complete in these grounds.

SUPERINTENDENT.

The work of the Superintendent has been pushed forward during the year with unabated zeal. Department work has been tried with good success in some of the middle grades. Through his efforts and the approval of the Committee a Teachers' Institute was held in the autumn which was recognized to be of the greatest value to our teachers and to our citizens of the best influence, as it brought before both some of the most approved methods now in operation in our State educational work.

As the Committee has come to understand both by law and practice what may be required of a Superintendent, a larger per cent. of responsibility has been laid upon him for securing good teachers and for the grading and general discipline in the schools.

TEACHERS.

The requirements for a good teacher in the Public Schools are many. It has come to be almost an unwritten law that our teachers shall be graduates from some of the State's Normal Schools, and thus be familiar, in general, with the best methods of work. We claim that we have as good a corps of teachers as can be found in any town of its size and valuation in the Commonwealth. As an evidence of this fact it should be noted that during the year teachers from our number have been called to fill better positions in the towns of Bedford, Everett and Woburn.

The high grade of work done in our Public Schools today is a fact worthy of notice, especially as it is placed in comparison with the work of but a few years since, before the days of a Superintendent. Today pupils direct from our Public Schools may be found in such schools as Brown Uni-

versity, Boston University and Worcester School of Technology.

The above result has only been reached by a careful grading of the studies from the Primary upward, and a continued effort to bring the same into successful operation. This result has been reached through the patient and persistent efforts of the Superintendent and his efficient corps of teachers, and, while it may be necessary to practice the most rigid economy in the near future in the various departments of the town service, great care should be taken not to destroy the efficiency of the school service by any insidious attack on our school system in the name of economy.

During the year another of the schools in out-districts has been closed and its pupils brought to the Centre schools. In previous cases of this kind the Committee has had a laborious task to show to the citizens of these districts the many and increased advantages that would accrue to their children by attendance upon the graded schools of the Centre. But in this case—the Northwest—these are the very reasons laid before the Committee why their children should have the privileges of the village schools. Thus the people are coming to understand something of the excellent work that is being done by our graded schools.

Your Committee has this year made a step forward in the efficiency of the High School by adding to its already well-defined classical and English courses a special or Business course. That the citizens appreciate this move on the part of the Committee is evidenced by the already large attendance upon the classes of this course. It has also proved a source of a considerable income to the funds of the School Department in the shape of tuitions received from pupils of adjacent communities, and it is hoped that the town will make sufficient appropriations to continue the course at least through the present school year.

The sanitary system in Horace Mann building is in a deplorable condition. It has already become necessary to close some of the compartments on account of their uselessness. Complaint has even now come to the Committee

of the discomfort and unhealthfulness of which it is the direct cause. It is also an item of considerable expense to keep the system in at least working order. Your Committee is of the opinion that some steps should be immediately taken to entirely remodel the present system, or, better, put in some system more simple and less expensive to operate. We would recommend that a special appropriation be made for this specific purpose.

The most vital need of the Free Schools of this community today is a more intimate acquaintance by the fathers and mothers of the town with the work that is being done by your Committee through their Superintendent and teachers. It is not enough that your children be packed away out of your sight and mind five and one-quarter hours two hundred days in the year in the school-room, as in a storehouse, that the teacher shall grind out alone at the age of sixteen or eighteen such minds as you think they ought to have. But it is your duty to testify to your appreciation of the work of your Committee, your Superintendent, your teachers, by your hearty co-operation with them to develop your sons and daughters into worthy citizens. As one means to this end let your names be found often upon the teachers' visiting list. As another, while it may be your privilege to criticise adversely these your servants, it is your greater privilege, in view of the duties you have laid upon them, to work heartily with them in the furtherance of the plans you, through them, have made. Let the more favored ones encourage the high grade of work now done in the Public Schools by sending their pupils to them, and give thereby to the less favored ones the education that comes by association with them; and let the poorest remember that the advantages of the Public School are equally free to his son and daughter; and let them learn here together, under the same Free School-house roof, obedience to law and love for all our free institutions.

The School Committee make the following estimates for school expenses the current year:

For salaries of Superintendent, teachers, janitors

and fuel,	$10,575 00
For books and supplies, repairs and transportation,	2,625 00
Total amount,	$13,200 00

REPORT OF SCHOOL SUPERINTENDENT.

To the Chairman and Members of the School Committee:

Permit me to submit to you and the citizens of Franklin the following report of the schools. Such a report, if true, must represent the actual condition of the schools, their needs and plans for the future. Many reports consist of abstract theorizing, and are of little use.

The changes in the past year have been many. In April, to increase the efficiency of the High School, Miss Whiting began a course in physical culture and vocal reading. Knowledge is of far less value unless conveyed in a pleasant and attractive manner. Her results have been most praiseworthy. This additional work made the employment of another assistant necessary, and Miss Bertha Ellis, a recent graduate, was secured. In June, after a careful and protracted examination, the Committee decided to add a commercial course to the High School. The vote seemed eminently wise, even in this year of needed economy.

In the school year of 1895-96 six of Franklin's young people pursued such a course in the neighboring cities at an average cost of $300, making a total of about $1,800 from the people. Many could not afford this. We are now receiving $200, the larger part since September, from the adjoining towns, in tuition, and will receive much more in the future if the present standards are maintained. The money thus received could have been used to pay in part the salary of the extra teacher. In other words, by an outlay of some $300 of the town's money, we are saving six times as much to the individuals of the town. The instructor, in addition to the studies of a distinctive commercial course, is teaching three other subjects daily in the High School.

"How does the work compare with that of the commercial schools?" We can do better work than they if we can retain

the present teachers. Instead of a year's course, we offer a four years' course. "Can you get positions for the graduates?" another asks. Two positions have been already secured by our pupils, and others promised upon the completion of the work. The number and faithfulness of the students justify the existence of such a course. "But can you not do the work with fewer teachers?" No. Since September there have been one hundred and seven different pupils reciting to the High School teachers. One teacher could manage this number if all studied the same subjects. Neither parents nor scholars are willing all should do the same. The wider the choice, the more classes; hence the more teachers. At present the burden upon each teacher is very heavy. Miss A. Fannie O'Hara, a graduate of Roxbury High School and three years' student at the Massachusetts Institute of Technology, with the record of a year's successful teaching at Norwood, was finally secured for the new work. From her scholarship and personal influence she is a most valuable assistant. This commercial course is not "catering to the dullards," as our critics retail, but is thoroughly in line with the movement throughout the State, and demands an equal amount of time and mental application. With inferior instructors any course easily becomes the catch-all for the poorer scholars.

I believe the classics and mathematics furnish the best foundation training for a liberal education and for life. Many pupils have not the perseverance to master even their elements. Shall such be denied all secondary education because they do not care for what seems best to us? Shall they be left to go on the streets? Is it not a duty to furnish under certain limits what the people and the children of the people feel they need?

Late in August Miss Mamie O. Sawyer resigned her position. Miss Sawyer was not a perfect teacher — none of us are — but in these latter days when the cry is popularity, yea, even when prizes are offered for the most popular teacher and the faithful go unrewarded; when the tendency is to amuse and entertain the scholars, it is a good thing now and then to

have a firm disciplinarian and thorough drill-master. If the opponents of such teachers would labor half as hard to correct their children at home and on the streets and in systematic visits to the schools, as they do in spreading prejudiced criticisms, our schools would be far better to-day.

The Committee appointed Miss A. G. Pierce, a graduate of Bridgewater, a good student and highly recommended teacher, to the eighth grade. She is trying most faithfully. The school in many respects is the hardest to manage in town.

The departmental plan is still continued in the School Street School with gratifying results. Miss Katherine Gardner, one of the best sixth grade teachers we ever had, resigned early in the Summer. For several weeks we sought the right candidate. Miss Mary L. Saxton, a successful teacher from Vermont and a graduate of high rank from Mt. Holyoke, was selected. Pupils, who at home seem little ladies and gentlemen, at school are like wild barbarians and need a stern hand. In the American schools more than half the teacher's strength is wasted in maintaining discipline — a discipline that ought to have been taught in the home. Early in November Miss Saxton submitted her resignation to the Committee. For the salary offered no one could be found who could so satisfactorily meet the needs of the school in their sum total as Miss Saxton; therefore we have continued to employ her. The school has greatly improved. Miss Saxton is a most estimable lady, a good scholar and an excellent instructor.

Miss Frances Whiting resigned to accept a position in Everett, and Miss Bertha Ellis, a High School graduate and assistant, who had prepared herself by further study at Dean and at Cottage City, was elected to the City Mills School. She is doing most excellent work for a beginner. I commend her loyalty to the school and its interests, her willingness to learn and ability to inspire others with a like desire. Often children are kept from wrong simply by having their activities constantly directed toward right ends. Miss Ellis' order and general oversight during recitation, study and play hours is good. Much criticism has been heard because a Normal graduate of experience was not elected. "A Normal gradu-

ate" has become the standard cry of the unthinking, as if that insured success. A successful Normal graduate of experience will not accept the salary Franklin is paying in her lower grades. The unsuccessful one we do not seek. The Normal course is the best as yet designed for the training of teachers, but it cannot make a good teacher out of poor material, and it does tend to give undue emphasis to the form and method of instruction and less to the substance of knowledge.

Four days before the opening of Primary No. 2 Miss Mary Linton resigned. We were most fortunate in securing Miss Harriet Baker, a graduate of Framingham, who has obtained the most excellent results. Miss Baker had several flattering offers during her work here, and at the end of the term resigned. Miss Pearl Jacobs has been substituting in the room. Miss Lucy Burgess, after careful investigation by the Committee, was elected for the Unionville School. She seemed to have all the necessary qualifications for that vacancy. At the end of the first week she resigned. The people in the North West wished to have their children transported to the center schools. Because this was almost unanimous, the request was granted, and Miss Lee was transferred to the Unionville School. Her work has been most satisfactory in both places.

In December Miss Eva Whiting accepted a better position, and Miss Rachel Wordell of Bridgewater has been secured.

While believing heartily in the greater benefits derived from bringing the pupils of the outlying districts to the center, I am not in favor of extending it unless the parents desire the improvement. In expending the money of the town this argument hardly merits the highest claim: "Because we pay a larger proportion of the taxes we should have greater privileges than the other districts." Is this patriotism, or selfishness? Right, or is it might? Is this distribution true in the family or in the state? The idea is growing that the strong must bear the burdens of the weak, the rich of the poor, and the cry is not as tolerated as of old—"How much can I force the state or town to do for me," but rather, "how much can I do for it?"

Experience has taught the school officials that pupils can

oe prepared for the High School in the eighth and ninth grades in the center better than in the districts. In the past four years no district school has succeeded in preparing a pupil to either enter or pursue the course in the High school. Therefore, pupils are advised to attend the Horace Mann building for these two grades. Under the state laws the School Board has absolute authority in grading the schools. Pupils of the higher grades are permitted to ride wherever barges are provided for transportation of lower grades. But this fall a demand and threat came from a district where a school is kept for the younger scholars, that their eighth and ninth grade pupils must be transported to the Horace Mann by the town. If the town wishes to do so, then it is my pleasure to execute that wish. Personally I fail to see the justice of having the town pay for the Unionville children, small as the sum may be, and not granting the same privilege to those coming from 'Latic and City Mills. Should not all outlying portions of the town be treated the same, as far as possible, irrespective of local taxation?

In filling the vacancies, as severally mentioned, much care has been taken. We get better work, while she remains, from the teacher who is progressive and means to use her success as a stepping-stone to something better than from the one who is contented to spend her life here. Scholarship, character, earnestness and chance for success must be considered.

Of the faithful teachers who have remained with us, the public has had ample opportunity to judge of their success.

Four years ago only one of the public school teachers was doing any advanced studying; now there are six, and these are our best and most progressive teachers. In addition to the regular monthly teachers' meeting, a volunteer class, meeting once a week, has been formed for mind-study.

The devolopment of a broader spirit has not been limited to the teachers, as evinced by the successful drama and lecture course given by the senior class in the High school. The evening before Thanksgiving an entertainment was prepared for the public, the admission asked being provisions for the

poor. The next morning many dollars' worth of supplies was distributed among the needy.

"BY THEIR FRUITS YE SHALL KNOW THEM."

Fred V. Hussey, valedictorian of the class of '96, entered Brown University on certificate from the Franklin High School and has obtained honors in more than half of his subsequent examinations. F. Roy Comey entered Boston University and has already received advanced standing in French. O. S. Stetson, class of '97, passed without conditions the examinations of both the Boston and Worcester Institutes of Technology. Lee C. Abbott, '95, entered the University of Vermont after several months of successful teaching in a neighboring town. Margaret Sullivan, '96, is doing excellent work at Bridgewater Normal. Marion Bennet, Chas. Frazer and Pearl Jacobs have been pursuing advanced courses in the High schools. Eliza Newell is at home. Louis De Sorgher is a druggist clerk.

It is a pleasure to mention Dr. King's careful, business-like supervision of the repairs during the summer, and his effective use of the town's money for such purposes.

The furniture of the various rooms have been most skillfully renovated and kept in repairs by our janitors. The repairs needed next year are an enlarged woodshed and fencing at 'Latic, and a new floor; fencing at the Four Corners, and better ventilation at the Brick. Walls in a few rooms need tinting. The plan of incineration in the closets at the Horace Mann is in many respects a failure, and is at present, I believe, unsanitary. These closets must be repaired or new ones on a better plan, introduced. The third floor of this building needs strengthening by iron girders. In buildings of the same cost great pains is taken to render the floors sound-proof and fire-proof by means of cement and asbestos. These and a few other repairs must be done before the building can be called first-class. Few can realize in what an unfinished condition the Horace Mann was left, and how much of the janitor's time has been used to bring it to as near completion as it is at present.

Early in March there was an epidemic of diphtheria among certain families. The Four Corners' building was supposed by some to be the cause. The superintendent closed it and sent the pupils temporarily to Nason street. The recommendations of the Board of Health were fully complied with and by their permission the building is in use again. A more fruitful source of disease is in the exchanging of books and supplies among the pupils. A different method of distribution has been employed by advice of the Health Board although it involves a slight increase in expense.

The majority of our text-books are in better condition than ever before. Great economy has been followed in the purchase and distribution of books and supplies. In some subjects only one book has been allotted to two pupils; yet the very parents who are in favor of less appropriation for schools do the fault-finding.

Greater care must be exercised by the teachers as well as by your children with the town's property. In one week five books were found and brought in to me, yet only one had been reported lost. How careless the other four! Teachers are not exact enough in recording each book nor the children in the use. Parents, please help us.

Permit me to call attention to a few defects. There is a lack of interest by the parents in the daily routine. Let a teacher give an entertainment and we are blessed with visitors who never call during the routine work. Does this not implant the idea in the child's mind that the show-periods of life are more important than daily truth-living?

The average salary is too small to retain our best teachers. If we do good work we are at best but a training school for larger places.

The number of school weeks should be increased to at least thirty-eight per year in grades 4 to 8.

The work in geography and nature-study, with the exception of the course at School street, is decidedly poor throughout the schools. The teachers have not been trained in the scientific study of geography.

Last summer Frye's Geographies were introduced in part, though against the Superintendent's recommendation.

These text-books, although containing many valuable features, are inadequate and unsatisfactory except under ideal conditions, which we do not at present possess.

The old text-book in grammar has given place to the new Sheldon's Series.

Your Superintendent had been dissatisfied for some time with both the methods and results obtained in the first year's reading. In St. Louis, where phonics are well taught, it has been found that "children can read as well at the end of four months as those attending schools where phonics are not taught can read in two years' time." Similar results have been gained here in Miss Linton's room. In view of this fact Ward's Manual and Reader were introduced. A decided gain has already been shown.

Among the minor changes must be mentioned the increased time given to algebra and the excellent work in physiology in the ninth grade. Bookkeeping is not taken as a separate study in that grade this year because of the advanced course in the High School. Latin, however, is made elective in both the ninth and tenth years.

The vertical system of writing introduced in all grades below the eighth is successful. We cannot get the best results until the teachers themselves can write better. We have but one excellent writer among the teachers. I have come to believe that part of the money now expended in special instruction in other lines, would bring more practical results if used to employ for a few weeks a special instructor in penmanship.

A public kindergarten is needed and can be established if the town will grant a like appropriation to that of last year.

A larger appropriation for physical apparatus for the science department of the High School is needed. Several hundred dollars would be required to fit a class for Harvard. We hope for at least $100 this year to advance the excellent and faithful work of Miss Goodwin in the sciences.

In June some twelve pupils from our ninth grade failed

to deserve the marks required for promotion. The Committee decided that these pupils could not enter the High School that year, a decision which has proved wise by subsequent events. In September four students from another school wished to enter the High School. Contrary to custom they had exactly the same questions as had been previously given in June in our examinations, but only one of these pupils passed. Should the others enter with a lower per cent. than by the twelve already refused? No. Yet this decision, the only one possible, was unsatisfactory to some.

A PLEA FOR THE CLASSICS.

There has been a revolt in recent years against the study of the classics, while science and modern languages are urged as an equivalent. There is a serious danger in this tendency. The scientific spirit demands the test of experiment for all. But from environment or temperament all are not capable of deriving the truth from these tests. The dearest images and the highest ideals of the past are needlessly lugged into their quasi-laboratories and dissected. Faith is undermined, reverence for the great achievements of the past is lost, and authority of anything but the individual's own experiments is questioned. In abandoning the study of these monuments of past thought and glory, are we not "selling our birthright for a mess of pottage?"

HIGH SCHOOL BUSINESS COURSE.

To the School Committee of the Town of Franklin:

Although the "Business Course" was not introduced into the curriculum of the High School until last September, we believe that much has already been accomplished in fitting the young people of Franklin for a more successful business career.

We believe that no one can be a successful business man or woman, unless he knows how to manage his own business. To do that he must write well, spell well, add correctly and rapidly, and be acquainted with the ordinary business forms, and with the ordinary business forms and laws, and with the principles of double-entry and book-keeping.

Thus far the members of the book-keeping class have become well grounded in the principles and ordinary forms of "double-entry book-keeping," and in many of the rapid and approved methods of "commercial arithmetic."

The stenography class are already familiar with the "Gregg system of phonography." They write correctly, and with a fair rate of speed, and are able to translate what they write readily.

Another year, with added experience, increased facilities and improved methods, we hope to fill entirely the place which has hitherto been occupied by the Business College.

REPORT OF THE SUPERVISOR OF DRAWING.

But few changes have been made in the drawing meth-

ods, these mainly in raising the grade work where possible.

Several new casts were purchased at the close of last year, and are appreciated in the charcoal drawing, as are also the better accommodations for the juniors and seniors in the hall over the main school-room. There is yet need of a few more desks and drawing boards. Conflicting hours of recitations are, perhaps, the most serious difficulty encountered here this year, and this seems unavoidable.

A little has been attempted in water-colors in the higher grades, with fair results, considering the difficulty of handling the medium, and the short time given it. The work has included laying flat washes of color, grading from tints to shades, and mixing colors. Water-colors have also been employed in simple designs, and in map-coloring.

Color tablets have been furnished the primary grades, but the supply of colored paper is very low.

More attention is being given to designs, one of the practical features of art, with the additional endeavor for individuality and originality, not always easily secured.

The point needing most strengthening in all grades is readiness in drawing from objects, and nothing will effect this but practice. This readiness in seeing, and representing what is seen is the chief end and aim of all the drawing instruction. It would be an advantage if home sketches were required often of the pupils. A welcome variation might thus be made from the type forms, which are of necessity, the subject of most school sketches. In the High School this is done, particularly with the seniors and juniors, the sketches being criticised with the class. A pocket sketch-book and a few spare moments each day might accomplish wonders. Another feature to be recommended is drawing from memory. To sum up everything "The only way to learn to draw is by drawing."

Thanks are due the teachers and many of the pupils for their interest and endeavors.

Respectfully submitted,

ADRA R. MASON.

REPORT OF SUPERVISOR OF MUSIC.

The Supervisor of music in the Franklin Public Schools would present the following report:—

The study of music has been accomplished throughout the year with excellent success, the usual amount of work being done in the lower grades, while a remarkable improvement has been noticed in the High School. A reason for this is the new Cecilian, one of the Normal series which was purchased during the year. A collection seems to be an incentive to the pupils; it gives a broader field of work, with the use of the Euterpean, which has been used for many years.

The voices are improving in the High School and the part singing is excellent because of the good readers.

Tunefullness of intervals and quality of tone have been successfully attained through much labor on the part of the Supervisor and the regular teachers. There are fewer pupils without a good scale this year than in those preceding; an average of two or three in a room without a true scale would, I think, cover the lower grades. Individual singing has been encouraged, and many pupils are delighted to sing exercises and songs alone.

The lessons have been generally well learned and it has been a pleasure to hear them. The teachers' meetings have been fully attended. Since September there have been several grade meetings.

Written work has been required nearly every week from all the grades upon technical points, and the many papers will be seen in May or June of this year, when an exhibition of music will probably be given. Last June some very good vocal work was exemplified, in the presence of the Committee and a few musical people.

The Supervisor would herewith extend her thanks to the teachers for their constant aid in her behalf, knowing success is due largely to their ever willing kindness to her, and faith-

ful daily teaching.

Respectfully submitted,

MRS. LIZZIE TREEN HOSMER.

SCHOOL STREET SCHOOL.

To the Chairman and Members of the School Committee:

At the request of the Superintendent of Schools I have prepared for the Committee a brief report of the work at the School Street School for the past year.

The most important change of the year has been the introduction of the departmental plan of instruction in the fourth, fifth, sixth and seventh grades. Certain classes of studies, mathematics, English, geography and nature have been arranged in departments reciting to one teacher. As this system of teaching was one of the new departures in educational matters, I have carefully watched the results obtained in each study. At first the work of our classes progressed, perhaps slowly, but in the end most satisfactorily. After a trial of six months the teachers were willing to admit that the change to the departmental plan of teaching was for many reasons a wise one and was sure to be a success if continued in the future.

I have found the advantage of this system to be: 1. Better classification and progress of pupils; more frequent promotions. 2. More interest manifested by the pupils in preparing their work. 3. More careful planning and better arrangement of lessons through the numerous grades; economy of time,

The past year's experience will be of much assistance to us in our work for the ensuing year. We hope to make a complete success of this system of instruction and prove it to be a great success.

All the grades are well supplied with language books, much to the satisfaction of the teacher in that department. In the seventh grade the change from Sheldon's arithmetic to the New Franklin was appreciated by teacher and pupils. The arithmetics in the sixth class are in poor condition. Many of the books are old and ought to be replaced by others. Pupils and teacher of the sixth and seventh grades welcomed the introduction of Frye's geography. A few additional copies are required in each of the grades to facilitate our work.

ISABEL M REILLY.

TRUANT OFFICER'S REPORT.

To the School Committee:

Since receiving my appointment as Truant Officer last April I have had twenty cases reported. Found one boy playing truant. I swore out a warrant and arrested the boy. He was taken before Trial Justice Doe, the case was continued, and the boy left town soon after. I find that in most of the cases reported the parents keep the children at home. Whatever fault may be found should therefore fall on the parents and not on the children. All of which is

May 4—E. Waite's picker house; slight damage.

Sept. 2—Railroad bridge; damage slight.

Sept. 9—Fiske's fish market; damage slight.

Oct. 1—Nathan Daniels' cider mill; insured.

Nov. 16—J. Heaton's house; no damage.

Dec. 25—Joseph Hutchinson's house; Arlington street; insured.

Your department consists of five engineers, two engine companies, two hose companies, one hook and ladder company. We have traded the No. 1 engine for a new hose carriage and built a house for the same at the head of Cottage street.

We have introduced the Steavens fire alarm system on trial and it gives satisfaction, and we recommend the adoption of the same by the town with the addition of five more boxes; we have five at the present time. We recommend an appropriation of five hundred dollars to pay for the present system if adopted. We recommend twenty-two hundred dollars for the department and three hundred dollars for new hose.

REPORT OF BOARD OF HEALTH.

Franklin, Mass., Feb. 1, 1897.

To the Selectmen of the Town of Franklin:

Gentlemen:—The Board of Health elected at the last annual town meeting was organized March 5, 1896, with Dr. G. A. Martin as chairman, and Dr. Dwight M. Hodge as secretary. We have attended promptly to such complaints as have been brought before us, and have ordered such action as seemed to be called for in each case. It is a pleasure to report that we have found citizens ready to co-operate cheerfully with this Board in maintaining the health of the town and our business has been transacted without friction or unpleasantness. The rules of this Board, adopted in April last, and published by us have, so far as we are aware, been generally observed. In eight cases written complaints have been formally laid before us of nuisances inimical to public health. These cases have been carefully investigated by this Board. In seven of them the Board ordered the removal of the objectionable conditions complained of and, in one other case, suggested advisable changes. In every case the order of this Board has been cheerfully complied with. In other cases, without formal complaint being made, we have advised changes which seemed to us advisable with a view to a better sanitary condition, and to obviate ultimate complaint.

We should be very derelict in duty, however, if we did not remind the people of Franklin that no Board of Health, nor any action of its citizens, short of that of providing suitable sewerage, can maintain proper sanitary conditions here. Early measures should be adopted to secure effective sewerage. If this is not done, property will still further depreciate in value, Franklin will become more and more undesirable as place of residence, business will be less and less likely to locate here and there will continue to be grave danger of formidable epidemic diseases.

Cases of contagious or infectious diseases have been reported to this Board and received its attention as follows:—

Diphtheria, 9 cases; typhoid fever, 3 cases; scarlet fever, 4 cases; measles, 1 case. Total, 17 cases.

The report of the inspector of animals, appointed by this Board, is herewith submitted:

In co-operation with the State Board of Health, provision has been made for examinations by the State Board of suspected discharges in cases of consumption and diphtheria, with a view to positive diagnosis This has been done without expense to the town, and it is for the convenience of medical men in surrounding towns also. Examinations in cases of suspected malarial diseases are also provided for in this connection.

Examination of the public water used in Franklin has been made by the State Board of Health the past year and its report has been published.

REPORT OF OVERSEERS OF POOR.

The Board presents the following report for the year ending Jan. 31, 1897:

The demands on this Board for temporary aid since the business depression began have been much larger than for the corresponding period of last year.

Men and women, willing and ready to work, have been obliged to call for aid because of their inability to find work.

These demands must be met, and we deem it for the best interests of the town, to help these unfortunates through their temporary embarrassment, rather than to care for them at the almshouse.

Should the business depression continue for any great length of time, these demands will necessarily be large, and the expenditures correspondingly increased.

Appropriated, $7,183 00

Of this amount $3,036.21 was used to pay bills remaining from year 1895–96.

The remaining sum of $4,146.79 has been used to support the poor during the past year.

There now remains in our hands bills to the amount of $700, which have not been paid. There are due from other towns and from the State bills amounting to $635.47. If this amount had been received, the sum overdrawn would have been but $153.89.

The total number of persons who have received aid is 136. Of this number 11 are confined in our almshouse, 5 are insane, 21 settled in other towns, 20 are state charges and 79 are settled in Franklin.

The amount received from produce, etc., sold at farm, including the money received from the State for condemned cattle, is $1,607.

REPORT OF INSPECTOR OF CATTLE.

To The Selectmen of Franklin:

Number of inspections made at slaughter house, 254; beeves, 11; tuberculous 4; veals, 107; tuberculous, 2; Hogs, 105; tuberculous, 3.

Number of animals placed in quarantine, 111; condemned, 101; released, 10.

I have not made a full, general inspection during the past year. Through neglect of the commission to notify me when to commence this work, I had only ten days in which to accomplish it. By the examinations which I have made at the request of owners, I think we have accomplished more in getting rid of diseased animals than in former years.

Respectfully, submitted,

T. L. MARTIN, V. S.,
Inspector.

Franklin, Feb. 1, 1897.

Hereof fail not, and make due return of this warrant with your doing thereon, to the Town Clerk, on or before the hour of said meeting.

Given under our hands this sixteenth day of February, A. D., 1897.

EDWIN A. MASON,
CHARLES F. NYE,
Selectmen of Franklin.

REPORT OF THE FRANKLIN LIBRARY ASSOCIATION.

The Directors of the Franklin Library Association offer the following report for the year ending February 1, 1897:

The Library and Reading Room have been open regularly for the past year on all the week days of the year except legal holidays and the month of August. During August, the past year, the rooms have been open every Saturday. During the year 13,188 volumes were drawn out for home reading, making an average daily circulation of 46.3 volumes. During the month of August 285 volumes were in circulation. The number of persons drawing books, making no account of those using the books in the Reading Room, is 661. The Library has received by donation the past year 69 volumes, of which 54 are public documents and reports.

The amount appropriated by the town, together with the other income of the Library, suffices to pay the necessary running expenses of the Library, but leaves only a very small amount for the purchase of books.

For the Directors,

DWIGHT M. HODGE.

GEORGE W. WIGGIN,
EDGAR K. RAY,
EDWIN A. MASON,
Selectmen of Franklin.

On the above warrant the following return was made:

NORFOLK, SS. FEBRUARY 22, A. D. 1896.

By virtue of the within warrant I have notified the inhabitants of the Town of Franklin herein described to assemble in their Town Hall on Monday, the second day of March, A. D. 1896, for the pur.

poses within mentioned, by posting attested copies of the within warrant in each of the post offices of the town, and in ten other public places, seven days before the day of meeting, in compliance with Section two of Article one of the By-Laws of the Town of Franklin.

LEWIS R. WHITAKER,
Constable of Franklin.

A true record of the warrant and the return thereon.

Attest: ORESTES T. DOE,
Town Clerk.

Proceedings of the Annual Town Meeting,

MARCH 2d, 1896.

Pursuant to the foregoing warrant the inhabitants of the aforesaid town of Franklin qualified to vote in town affairs met at the Town Hall, in said town, on the first Monday of March, it being the second day of said month, A. D. 1896.

The meeting was called to order at the time and place named in said warrant by the Town Clerk, who read the warrant and return thereon, and then, at his request, Rev. Wm. M. Thayer offered prayer, after which William F. Ray was chosen Moderator by ballot, in receiving which the check-list was used, and he was sworn by the Town Clerk.

Bradley M. Rockwood and John B. Collins were appointed Ballot Clerks by the Selectman before the opening of the polls, and said Ballot Clerks were sworn by the Town Clerk before receiving the ballots; and before the opening of the polls the Town Clerk delivered a bundle packed by him and sealed, as required by law, containing fifteen hundred (1500) official ballots and one hundred and fifty (150) special ballots for women, and the receipt of the Ballot Clerks was taken for said ballots:

And the Town Clerk caused the cards of instruction and specimen ballots to be posted in each of the fifteen marking shelves or compartments provided by the Selectmen and a guard-rail was set six feet or more from said marking shelves or compartments, as required by law, and the cards of in-

struction and specimen ballots were posted outside the guard-rail, according to law.

The ballot box provided by the Secretary of the Commonwealth, used at the election, was publicly opened and shown to be empty, and was examined by the Moderator and Town Clerk; and the register thereon was set at 000 and then locked, and the key thereof given to Silas W. Nickerson, a constable of Franklin, after which the polls were declared open.

When the ballots were delivered to the voters by the Ballot Clerks the check-list was used, and the name of each voter receiving a ballot was announced and checked on said list by the Ballot Clerks, and the voter so receiving his ballot marked it at the marking shelf or compartment and then deposited his ballot in the box, as directed by the Moderator.

The name of each voter so casting a ballot was announced in a loud and distinct tone of voice and checked upon the check-list by the election officers in charge at said box and list.

The Selectmen, on the 20th day of February current, appointed George R. Winsor and Charles Stewart to act as Tellers at the annual election to be held on the second day of March current. Said George R. Winsor, on the day of the election, declined to act as such Teller, and the Moderator, in open town meeting, appointed Walter C. Sherman to take the place of said George R. Winsor; and also John W. Bradley, Bradley M. Rockwood, Nathan C. Nye and John B. Collins were appointed Tellers by the Moderator. All of the aforesaid Tellers who acted as such were duly sworn.

And Nathan C. Nye and James W. Desmond were appointed by the Moderator as additional Ballot Clerks, who were sworn by the Moderator.

The ballot box was opened by the unanimous consent of the Moderator and Town Clerk at ten o'clock in the forenoon on said day, and the ballots taken therefrom for the purpose of counting, at which time the register on said box showed that 226 ballots had been cast therein, and upon a

complete count of all ballots removed as aforesaid it was found that there were 224, and thereupon the canvass and counting of votes was commenced.

All of said ballots and the check-lists were kept within the unobstructed view of the voters present, according to law.

The polls were closed at 4 o'clock P. M., when the register on the ballot box showed that 701 ballots had been cast therein, and the names checked on each voting list were then counted by the election officers in a distinct and audible voice, and the number checked on each list used for the men voters was 681, which was announced; and the names checked on each of the check-lists used for the women voters were counted in the same manner and there were 11 names checked on each, which was announced; and all the ballots cast into said ballot box were counted and there were found to be 692.

The number of ballots left at the close of the polls deducted from the whole number receipted for by the Ballot Clerks showed 692 ballots delivered to the persons who voted.

All the ballots cast by the voters as aforesaid were sorted, counted and declaration thereof made by the Town Clerk in open town meeting, as follows, viz:

PROCEEDINGS OF THE GENERAL ELECTION,

NOVEMBER 3d, 1896.

COMMONWEALTH OF MASSACHUSETTS.

Norfolk, ss.

At a legal meeting of the inhabitants of the town of Franklin, in the county of Norfolk, qualified to vote as required by the Constitution for State officers, holden at the Town Hall, in said town, in accordance with the foregoing warrant, on Tuesday next after the first Monday in November, being the third day of said month, in the year of our Lord one thousand eight hundred and ninety-six, for the purpose of giving in their votes for fifteen Electors of President and Vice President of the United States, Governor, Lieutenant Governor, Secretary, Treasurer, Auditor, Attorney General for the Commonwealth, Councillor for the Second Councillor District, Senator for the Second Norfolk Senatorial District, two Representatives to the General Court for the Tenth Nor-

folk Representative District, a Clerk of Courts for the County of Norfolk, a County Commissioner for the County of Norfolk, a Special County Commissioner to fill a vacancy for the County of Norfolk, a Representative in the Congress of the United States for the Eleventh Congressional District; and also to give in their votes for or against Articles of Amendments to the Constitution of said Commonwealth relative to establishing biennial elections.

The meeting was called to order at 7 o'clock A. M. by the Chairman of the Selectmen, who read the warrant and return thereof.

Nathan C. Nye and John B. Collins were appointed Ballot Clerks by the Selectmen and both were duly sworn by the Town Clerk before the opening of the polls, and William A. Moore, Nelson E. Newell and James O. Chilson were appointed by the Selectmen as additional Ballot Clerks, and they were sworn by the Town Clerk and acted in the absence of the Ballot Clerks.

Fourteen marking shelves or compartments were provided by the town, according to law, and a guard rail was erected six (6) feet or more from said shelves or compartments.

The first set of ballots furnished for said election by the Secretary of the Commonwealth was, before the opening of the polls on said day, delivered by the Town Clerk, sealed, to the Chairman of the Selectmen and his receipt taken therefor, in the following form, viz:

NOVEMBER 3d, 1896.

Received of Orestes T. Doe, Town Clerk of Franklin, a package said to contain 1200 ballots for use at the election in said town on this day.

EDWIN A. MASON,
Chairman of the Selectmen of Franklin, Mass.

The ballot box, furnished and certified to by the said Secretary, was, before the opening of the polls, opened in public meeting and examined by the Selectmen and the Town Clerk and found to be empty, and the register thereon was set at zero (0) and thereupon locked and the key delivered to the police officer, Silas W. Nickerson.

The seals of the package containing the first set of ballots were then broken by the Chairman of the Selectmen, who delivered the same to the Ballot Clerks, and the cards of instructions and specimen ballots were posted in the marking shelves or compartments and about the room outside the guard-rail, as required by law, after which the polls were declared opened.

And it was then voted that the polls be kept open until four o'clock, and then closed.

The ballots were delivered to each voter by the Ballot Clerks, after the name of such voter had first been publicly announced and checked by said clerk upon the voting list used by them.

The ballot delivered to each voter was by him marked in one of the voting compartments aforesaid and thereafter deposited by such voter in said ballot box after his name had first been publicly announced at said box and duly checked upon the voting list by the election officers in charge of said box and list.

On the sixteenth day of October current the Selectmen appointed James W. Desmond, Bradley M. Rockwood, John P. Costello and Charles I. Senter as tellers to assist them in receiving, sorting and counting said ballots, and before entering upon their duties as such tellers they were all sworn by the Town Clerk to the faithful discharge of their duties as such tellers, and on election day William A. Moore and Walter C. Sherman were appointed by the Selectmen additional tellers and they were duly sworn by the Town Clerk.

The Selectmen and Town Clerk had charge of the election, and the ballot box and check list used with the same were under their care.

At nine o'clock in the forenoon the said ballot box was opened, by the unanimous consent of the election officers, to remove ballots therefrom for the purpose of counting, when the register on said box showed 113 ballots cast, and upon a complete count of all the ballots so removed it was found that there were 114.

The polls were closed at four o'clock in the afternoon, due notice having been made, when the register on the ballot box showed 884 ballots cast, and upon a complete count of all the ballots cast therein it was found that 887 ballots had been cast into said box and cancelled thereby. The whole number of ballots delivered to the voters by the Ballot Clerks was 887.

The ballots were divided into blocks, and each block was canvassed as required by law, and the total result of said canvass was recorded on the blank forms provided for that purpose.

The names checked upon the voting list used as aforesaid were then counted in a distinct and audible voice in the presence of all the election officers and the public; and the two check lists used for the voters each showed 887 names checked thereon.

The check lists used were furnished by the Registrars of Voters for the purpose of said election.

After the completion of the canvass of all the votes cast, and the whole number duly sorted, counted and recorded, declaration thereof was made, according to law, in open town meeting, as follows, viz:

REPORT OF INSPECTOR OF CATTLE.

To The Selectmen of Franklin:

Number of inspections made at slaughter house, 254; beeves, 11; tuberculous 4; veals, 107; tuberculous, 2; Hogs, 105; tuberculous, 3.

Number of animals placed in quarantine, 111; condemned, 101; released, 10.

I have not made a full, general inspection during the past year. Through neglect of the commission to notify me when to commence this work, I had only ten days in which to accomplish it. By the examinations which I have made at the request of owners, I think we have accomplished more in getting rid of diseased animals than in former years.

Respectfully, submitted,

T. L. MARTIN, V. S.,
Inspector.

WARRANT FOR THE ANNUAL TOWN MEETING, MARCH 1, 1897.

COMMONWEALTH OF MASSACHUSETTS.

NORFOLK, ss.

To either of the Constables of the Town of Franklin, GREETING.

You are hereby required in the name of the Commonwealth of Massachusetts to notify and warn the qualified voters of the Town of Franklin to assemble in their Town Hall on Monday, the first day of March, A. D. 1897, at seven o'clock in the forenoon, then and there to act on the following articles, viz:

ARTICLE 1. To choose by ballot a moderator to preside over said meeting.

ARTICLE 2. To choose by ballot the following named officers, viz: Three Selectmen, one Town Treasurer, one Town Clerk, an Auditor, three Assessors of Taxes, three Overseers of the Poor, one Collector of Taxes, three Constables, all for one year and one School Committee for three years, one member of the Board of Health for three years, to be voted for upon one ballot; and also upon the same ballot to vote upon the question, "Shall license be granted for the sale of intoxicating liquor in this town."

ARTICLE 3. To choose all other necessary town officers for the year ensuing.

ARTICLE 4. To see in what way and manner the town shall collect its taxes the current year,

ARTICLE 5. To hear a report of the town officers and act thereon.

ARTICLE 6. To see what action the town will take relative to a pound.

ARTICLE 7. To vote a suitable number of names of persons into the jury box for the year ensuing.

ARTICLE 8. To see if the town will authorize the Treasurer, under the direction of the Selectmen, to borrow money in anticipation of taxes for the current year, as may be necessary to meet the current expenses.

ARTICLE 9. To see if the town will instruct the Selectmen to suppress the illegal sale of intoxicating liquors in the town for the current year.

ARTICLE 10. To see what sums of money the town will raise and appropriate for the repairs of roads, bridges and sidewalks; for the support of schools, including the salary of a superintendent and the transportation of scholars; for repairing school houses, for school books, supplies and miscellaneous school expenses; for the support of the poor; for the support of the fire department; for water supply; for payment of town officers; for payment of town debt and interest; for abatement and collection of taxes; for street lights; for printing and stationery; for suppression of illegal liquor traffic; for payment of police; for state and military aid; for support of the library of the Franklin Library Association; for the decoration of soldiers' graves; for soldiers' aid; for miscellaneous town expenses.

ARTICLE 11. To see if the town will vote to require the School Committee to employ a Superintendent of Schools, or do anything relating thereto.

ARTICLE 12. To see if the town will appropriate any and what sums of money to construct concrete sidewalks, or do anything relating thereto.

ARTICLE 13. To see if the town will authorize the School Board to employ a clerk at a salary not to exceed fifty dollars.

Article 14. To see if the town will reimburse M. J. Lee, for money paid for concreting, or do anything relating thereto.

Article 15. To see if the town will choose a committee to take into consideration the advisability of making changes to improve the present method of heating the Horace Mann School House and its sanitary defects.

Article 16. To see if the town will improve the grounds in the Union Street Cemetery, and appropriate money therefor, or do anything relating thereto.

Article 17. To see if the town will grant to Franklin Post, No. 60. G. A. R., the custody and occupancy of the Chapel School House, located on East Street, and a portion of the lot on which it stands, so long as the Post continues under its present charter, with the privilege of making an addition of not more than sixteen (16) feet in length to one end of the building, in consideration of a duly authorized agreement by the Post that they will use it for legitimate purposes only, keep the building insured for the benefit of the town while occupying the same, and peacefully giving up the same at the specified time with all permanent additions to the building.

REPORT OF THE FRANKLIN LIBRARY ASSOCIATION.

The Directors of the Franklin Library Association offer the following report for the year ending February 1, 1897:

The Library and Reading Room have been open regularly for the past year on all the week days of the year except legal holidays and the month of August. During August, the past year, the rooms have been open every Saturday. During the year 13,188 volumes were drawn out for home reading, making an average daily circulation of 46.3 volumes. During the month of August 285 volumes were in circulation. The number of persons drawing books, making no account of those using the books in the Reading Room, is 661. The Library has received by donation the past year 69 volumes, of which 54 are public documents and reports.

The amount appropriated by the town, together with the other income of the Library, suffices to pay the necessary running expenses of the Library, but leaves only a very small amount for the purchase of books.

For the Directors,

DWIGHT M. HODGE.

GEORGE W. WIGGIN,
EDGAR K. RAY,
EDWIN A. MASON,
Selectmen of Franklin.

On the above warrant the following return was made:

NORFOLK, SS. FEBRUARY 22, A. D. 1896.

By virtue of the within warrant I have notified the inhabitants of the Town of Franklin herein described to assemble in their Town Hall on Monday, the second day of March, A. D. 1896, for the pur.

poses within mentioned, by posting attested copies of the within warrant in each of the post offices of the town, and in ten other public places, seven days before the day of meeting, in compliance with Section two of Article one of the By-Laws of the Town of Franklin.

LEWIS R. WHITAKER,
Constable of Franklin.

A true record of the warrant and the return thereon.

Attest: ORESTES T. DOE,
Town Clerk.

Proceedings of the Annual Town Meeting,

MARCH 2d, 1896.

Pursuant to the foregoing warrant the inhabitants of the aforesaid town of Franklin qualified to vote in town affairs met at the Town Hall, in said town, on the first Monday of March, it being the second day of said month, A. D. 1896.

The meeting was called to order at the time and place named in said warrant by the Town Clerk, who read the warrant and return thereon, and then, at his request, Rev. Wm. M. Thayer offered prayer, after which William F. Ray was chosen Moderator by ballot, in receiving which the check-list was used, and he was sworn by the Town Clerk.

Bradley M. Rockwood and John B. Collins were appointed Ballot Clerks by the Selectman before the opening of the polls, and said Ballot Clerks were sworn by the Town Clerk before receiving the ballots; and before the opening of the polls the Town Clerk delivered a bundle packed by him and sealed, as required by law, containing fifteen hundred (1500) official ballots and one hundred and fifty (150) special ballots for women, and the receipt of the Ballot Clerks was taken for said ballots:

And the Town Clerk caused the cards of instruction and specimen ballots to be posted in each of the fifteen marking shelves or compartments provided by the Selectmen and a guard-rail was set six feet or more from said marking shelves or compartments, as required by law, and the cards of in-

struction and specimen ballots were posted outside the guard-rail, according to law.

The ballot box provided by the Secretary of the Commonwealth, used at the election, was publicly opened and shown to be empty, and was examined by the Moderator and Town Clerk; and the register thereon was set at 000 and then locked, and the key thereof given to Silas W. Nickerson, a constable of Franklin, after which the polls were declared open.

When the ballots were delivered to the voters by the Ballot Clerks the check-list was used, and the name of each voter receiving a ballot was announced and checked on said list by the Ballot Clerks, and the voter so receiving his ballot marked it at the marking shelf or compartment and then deposited his ballot in the box, as directed by the Moderator.

The name of each voter so casting a ballot was announced in a loud and distinct tone of voice and checked upon the check-list by the election officers in charge at said box and list.

The Selectmen, on the 20th day of February current, appointed George R. Winsor and Charles Stewart to act as Tellers at the annual election to be held on the second day of March current. Said George R. Winsor, on the day of the election, declined to act as such Teller, and the Moderator, in open town meeting, appointed Walter C. Sherman to take the place of said George R. Winsor; and also John W. Bradley, Bradley M. Rockwood, Nathan C. Nye and John B. Collins were appointed Tellers by the Moderator. All of the aforesaid Tellers who acted as such were duly sworn.

And Nathan C. Nye and James W. Desmond were appointed by the Moderator as additional Ballot Clerks, who were sworn by the Moderator.

The ballot box was opened by the unanimous consent of the Moderator and Town Clerk at ten o'clock in the forenoon on said day, and the ballots taken therefrom for the purpose of counting, at which time the register on said box showed that 226 ballots had been cast therein, and upon a

complete count of all ballots removed as aforesaid it was found that there were 224, and thereupon the canvass and counting of votes was commenced.

All of said ballots and the check-lists were kept within the unobstructed view of the voters present, according to law.

The polls were closed at 4 o'clock P. M., when the register on the ballot box showed that 701 ballots had been cast therein, and the names checked on each voting list were then counted by the election officers in a distinct and audible voice, and the number checked on each list used for the men voters was 681, which was announced; and the names checked on each of the check-lists used for the women voters were counted in the same manner and there were 11 names checked on each, which was announced; and all the ballots cast into said ballot box were counted and there were found to be 692.

The number of ballots left at the close of the polls deducted from the whole number receipted for by the Ballot Clerks showed 692 ballots delivered to the persons who voted.

All the ballots cast by the voters as aforesaid were sorted, counted and declaration thereof made by the Town Clerk in open town meeting, as follows, viz:

Constable of the Town of Franklin.

A true record of the warrant and officer's return thereon.
Attest: ORESTES T. DOE,
Town Clerk.

PROCEEDINGS OF THE GENERAL ELECTION,

NOVEMBER 3d, 1896.

COMMONWEALTH OF MASSACHUSETTS.

Norfolk, ss.

At a legal meeting of the inhabitants of the town of Franklin, in the county of Norfolk, qualified to vote as required by the Constitution for State officers, holden at the Town Hall, in said town, in accordance with the foregoing warrant, on Tuesday next after the first Monday in November, being the third day of said month, in the year of our Lord one thousand eight hundred and ninety-six, for the purpose of giving in their votes for fifteen Electors of President and Vice President of the United States, Governor, Lieutenant Governor, Secretary, Treasurer, Auditor, Attorney General for the Commonwealth, Councillor for the Second Councillor District, Senator for the Second Norfolk Senatorial District, two Representatives to the General Court for the Tenth Nor-

folk Representative District, a Clerk of Courts for the County of Norfolk, a County Commissioner for the County of Norfolk, a Special County Commissioner to fill a vacancy for the County of Norfolk, a Representative in the Congress of the United States for the Eleventh Congressional District; and also to give in their votes for or against Articles of Amendments to the Constitution of said Commonwealth relative to establishing biennial elections.

The meeting was called to order at 7 o'clock A. M. by the Chairman of the Selectmen, who read the warrant and return thereof.

Nathan C. Nye and John B. Collins were appointed Ballot Clerks by the Selectmen and both were duly sworn by the Town Clerk before the opening of the polls, and William A. Moore, Nelson E. Newell and James O. Chilson were appointed by the Selectmen as additional Ballot Clerks, and they were sworn by the Town Clerk and acted in the absence of the Ballot Clerks.

Fourteen marking shelves or compartments were provided by the town, according to law, and a guard rail was erected six (6) feet or more from said shelves or compartments.

The first set of ballots furnished for said election by the Secretary of the Commonwealth was, before the opening of the polls on said day, delivered by the Town Clerk, sealed, to the Chairman of the Selectmen and his receipt taken therefor, in the following form, viz:

NOVEMBER 3d, 1896.

Received of Orestes T. Doe, Town Clerk of Franklin, a package said to contain 1200 ballots for use at the election in said town on this day.

EDWIN A. MASON,
Chairman of the Selectmen of Franklin, Mass.

The ballot box, furnished and certified to by the said Secretary, was, before the opening of the polls, opened in public meeting and examined by the Selectmen and the Town Clerk and found to be empty, and the register thereon was set at zero (0) and thereupon locked and the key delivered to the police officer, Silas W. Nickerson.

The seals of the package containing the first set of ballots were then broken by the Chairman of the Selectmen, who delivered the same to the Ballot Clerks, and the cards of instructions and specimen ballots were posted in the marking shelves or compartments and about the room outside the guard-rail, as required by law, after which the polls were declared opened.

And it was then voted that the polls be kept open until four o'clock, and then closed.

The ballots were delivered to each voter by the Ballot Clerks, after the name of such voter had first been publicly announced and checked by said clerk upon the voting list used by them.

The ballot delivered to each voter was by him marked in one of the voting compartments aforesaid and thereafter deposited by such voter in said ballot box after his name had first been publicly announced at said box and duly checked upon the voting list by the election officers in charge of said box and list.

On the sixteenth day of October current the Selectmen appointed James W. Desmond, Bradley M. Rockwood, John P. Costello and Charles I. Senter as tellers to assist them in receiving, sorting and counting said ballots, and before entering upon their duties as such tellers they were all sworn by the Town Clerk to the faithful discharge of their duties as such tellers, and on election day William A. Moore and Walter C. Sherman were appointed by the Selectmen additional tellers and they were duly sworn by the Town Clerk.

The Selectmen and Town Clerk had charge of the election, and the ballot box and check list used with the same were under their care.

At nine o'clock in the forenoon the said ballot box was opened, by the unanimous consent of the election officers, to remove ballots therefrom for the purpose of counting, when the register on said box showed 113 ballots cast, and upon a complete count of all the ballots so removed it was found that there were 114.

The polls were closed at four o'clock in the afternoon, due notice having been made, when the register on the ballot box showed 884 ballots cast, and upon a complete count of all the ballots cast therein it was found that 887 ballots had been cast into said box and cancelled thereby. The whole number of ballots delivered to the voters by the Ballot Clerks was 887.

The ballots were divided into blocks, and each block was canvassed as required by law, and the total result of said canvass was recorded on the blank forms provided for that purpose.

The names checked upon the voting list used as aforesaid were then counted in a distinct and audible voice in the presence of all the election officers and the public; and the two check lists used for the voters each showed 887 names checked thereon.

The check lists used were furnished by the Registrars of Voters for the purpose of said election.

After the completion of the canvass of all the votes cast, and the whole number duly sorted, counted and recorded, declaration thereof was made, according to law, in open town meeting, as follows, viz:
